    class cl_move_base_z_EvWaypoint157["cl_move_base_z::EvWaypoint157< TSource, TOrthogonal >"]

The diagram illustrates an inheritance relationship. A blue arrow with an open triangular head points from the bottom class to the top class. The top class is a template for an event in the boost::statechart namespace. The bottom class is a specialization of this event, located in the cl_move_base_z namespace, and it includes a public member variable named waypointIndex.
