The diagram shows a base class box with the text 'boost::statechart::event< EvWaypoint97< TSource, TObjecTag > >' and two empty compartments below it. A derived class box, shaded gray, is positioned below the base class. It contains the text 'cl_move_base_z::EvWaypoint97< TSource, TObjecTag >' in the top compartment, '+ waypointIndex' in the middle compartment, and an empty compartment at the bottom. A blue arrow with an open triangle head points from the derived class box up to the base class box, indicating inheritance.
