

```
sm_fetch_two_table  
_pick_n_place_1::place  
_states::StOpenGripper  
::runtimeConfigure
```

A diagram showing a dependency. On the left, a gray rectangular box contains the text 'sm_fetch_two_table', '_pick_n_place_1::place', '_states::StOpenGripper', and '::runtimeConfigure'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'smacc::ISmaccState' and '::requiresClient'.

```
smacc::ISmaccState  
::requiresClient
```
