

```
sm_fetch_six_table  
_pick_n_sort_1::place  
_states::StPlaceRetreat  
::onExit
```

A diagram showing a transition from a stateful object to a stateless object. On the left, a gray rectangular box contains the text 'sm_fetch_six_table', '_pick_n_sort_1::place', '_states::StPlaceRetreat', and '::onExit'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'smacc::ISmaccState' and '::requiresClient'.

```
smacc::ISmaccState  
::requiresClient
```
