

```
sm_fetch_two_table  
_whiskey_pour::OrArm  
::onInitialize
```

```
graph LR; A["sm_fetch_two_table  
_whiskey_pour::OrArm  
::onInitialize"] --> B["smacc::ISmaccUpdatable  
::setUpdatePeriod"]
```

A diagram showing a call from the function `sm_fetch_two_table` to the method `smacc::ISmaccUpdatable::setUpdatePeriod`. The call is made from the `_whiskey_pour::OrArm::onInitialize` method. The call is represented by a blue arrow pointing from the left box to the right box.

```
smacc::ISmaccUpdatable  
::setUpdatePeriod
```
