

```
cl_move_base_z::ClMoveBase  
Z::initialize
```

A diagram showing a call from a function in the `cl_move_base_z` namespace to a function in the `smacc::client_bases` namespace. A blue arrow points from the `initialize` method of `ClMoveBaseZ` to the `initialize` method of `SmaccActionClientBase`.

```
smacc::client_bases  
::SmaccActionClientBase  
< move_base_msgs::MoveBaseAction  
>::initialize
```
