

smacc/include/smacc
/smacc_signal.h

```
graph TD; A["smacc/include/smacc /smacc_signal.h"] --> B["boost/signals2/signal.hpp"]; A --> C["boost/any.hpp"];
```

The diagram illustrates the include relationships for the `smacc_signal.h` header. It is a hierarchical structure where a single header file at the top includes two other header files below it. The top header is `smacc/include/smacc/smacc_signal.h`. It includes `boost/signals2/signal.hpp` on the left and `boost/any.hpp` on the right. The arrows indicate the direction of the include relationship, pointing from the parent header to the child headers.

boost/signals2/signal.hpp

boost/any.hpp
