

```
smacc::state_reactors  
::EgRandomGenerator::  
    onEntry
```

```
graph LR; A["smacc::state_reactors  
::EgRandomGenerator::  
    onEntry"] --> B["smacc::state_reactors  
::EgRandomGenerator::  
    postRandomEvents"]
```

A diagram showing a call sequence. A grey box on the left contains the text 'smacc::state\_reactors', '::EgRandomGenerator::', and 'onEntry'. A blue arrow points from this box to a white box on the right. The white box contains the text 'smacc::state\_reactors', '::EgRandomGenerator::', and 'postRandomEvents'.

```
smacc::state_reactors  
::EgRandomGenerator::  
    postRandomEvents
```
