The diagram illustrates an inheritance relationship. At the bottom is a class box for `cl_move_base_z::EvWaypoint223` with a light gray background. It contains the text `< TSource, TOrthogonal >` in its first compartment and `+ waypointIndex` in its second compartment. A blue arrow with an open triangular head points from the top of this box to the bottom of a class box above it. The top box has a white background and contains the text `boost::statechart::event< EvWaypoint223` in its first compartment and `< TSource, TOrthogonal > >` in its second compartment. The arrow indicates that `cl_move_base_z::EvWaypoint223` inherits from `boost::statechart::event`.
