

```
move_base_z_client  
::CostmapSwitch::registerProxy  
FromDynamicReconfigureServer
```

```
move_base_z_client  
::CostmapSwitch::initialize
```

```
graph LR; A[move_base_z_client::CostmapSwitch::initialize] --> B[move_base_z_client::CostmapSwitch::registerProxyFromDynamicReconfigureServer];
```

A blue arrow points from the 'initialize' method box to the 'registerProxyFromDynamicReconfigureServer' method box, indicating a function call.
