

franka\_control::FrankaState  
Controller::publishFrankaStates

```
graph LR; A[franka_control::FrankaStateController::publishFrankaStates] --> B[anonymous_namespace{franka_state_controller::cpp}::errorsToMessage]; A --> C[franka::Duration::toSec];
```

The diagram illustrates the dependencies of the `publishFrankaStates` function. A central box on the left, representing the function, has two arrows pointing to the right. The top arrow points to a box containing `anonymous_namespace{franka_state_controller::cpp}::errorsToMessage`, and the bottom arrow points to a box containing `franka::Duration::toSec`.

anonymous\_namespace  
{franka\_state\_controller  
::cpp}::errorsToMessage

franka::Duration::toSec
