

```
boost::statechart::  
event< EvKeyPressI<  
    TSource, TObjectTag > >
```

A UML class diagram showing inheritance. The base class, `boost::statechart::event< EvKeyPressI< TSource, TObjectTag > >`, is represented by a white box with a thin grey border and is divided into three horizontal sections. The derived class, `cl_keyboard::EvKeyPressI< TSource, TObjectTag >`, is represented by a grey box with a thick black border and is also divided into three horizontal sections. A blue arrow with an open triangular head points from the top section of the derived class to the top section of the base class, indicating an inheritance relationship.

```
cl_keyboard::EvKeyPressI  
< TSource, TObjectTag >
```
