

```
sm_fetch_two_table  
_whiskey_pour::pick  
_states::StCloseGripper  
::onExit
```

A diagram showing a dependency between two stateful actions. On the left, a gray box contains the text 'sm_fetch_two_table', '_whiskey_pour::pick', '_states::StCloseGripper', and '::onExit'. A blue arrow points from this box to a white box on the right. The white box contains the text 'smacc::ISmaccState' and '::requiresClient'.

```
smacc::ISmaccState  
::requiresClient
```
