

```
sm_fetch_six_table  
_pick_n_sort_1::place  
_states::StPlaceRetreat  
::runtimeConfigure
```

A diagram showing a dependency. On the left, a gray rectangular box contains the text: `sm_fetch_six_table`, `_pick_n_sort_1::place`, `_states::StPlaceRetreat`, and `::runtimeConfigure`. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text: `smacc::ISmaccState` and `::requiresClient`.

```
smacc::ISmaccState  
::requiresClient
```
