

```
sm_fetch_six_table  
_pick_n_sort_1::cl_perception  
_system::ClPerceptionSystem  
::decidePlacePose
```

A diagram illustrating a service call. On the left, a gray rectangular box contains the text 'sm\_fetch\_six\_table', '\_pick\_n\_sort\_1::cl\_perception', '\_system::ClPerceptionSystem', and '::decidePlacePose'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'smacc::ISmaccClient' and '::GetComponent'.

```
smacc::ISmaccClient  
::GetComponent
```
