

```
boost::statechart::  
event< EvMyBehavior  
< TSource, TOrthogonal > >
```

A UML class diagram showing inheritance. The base class, `boost::statechart::event< EvMyBehavior < TSource, TOrthogonal > >`, is represented by a white box with a black border and is divided into three horizontal compartments. The top compartment contains the class name. The derived class, `sm_ferrari::cl_subscriber::EvMyBehavior< TSource, TOrthogonal >`, is represented by a gray box with a black border and is also divided into three horizontal compartments. The top compartment contains the class name. A blue arrow with an open triangular head points from the top compartment of the derived class to the top compartment of the base class, indicating an inheritance relationship.

```
sm_ferrari::cl_subscriber  
::EvMyBehavior< TSource,  
TOrthogonal >
```
