The diagram illustrates an inheritance relationship. A base class box at the top contains the text 'boost::statechart::event< EvWaypoint251 < TSource, TOrthogonal > >'. A derived class box at the bottom, shaded gray, contains 'cl\_move\_base\_z::EvWaypoint251 < TSource, TOrthogonal >' and a public attribute '+ waypointIndex'. A blue arrow with an open triangular head points from the derived class box up to the base class box.

cl\_move\_base\_z::EvWaypoint251  
< TSource, TOrthogonal >
