

```
boost::statechart::  
event< EvWaypoint80  
< TSource, TObjectTag > >
```

The diagram shows two class-like boxes. The top box is white with a thin black border and contains the text 'boost::statechart::event< EvWaypoint80 < TSource, TObjectTag > >'. It has two empty horizontal compartments below the text. The bottom box is gray with a thick black border and contains the text 'move_base_z_client::EvWaypoint80< TSource, TObjectTag >' in the top compartment, '+ waypointIndex' in the middle compartment, and an empty compartment at the bottom. A blue arrow with a hollow triangular head points from the top of the bottom box to the bottom of the top box, indicating inheritance.

```
move_base_z_client  
::EvWaypoint80< TSource,  
TObjectTag >
```

```
+ waypointIndex
```
