

smacc::introspection  
::SmaccStateMachineInfo  
::createState

A diagram showing a call from the 'createState' method to the 'addState' method. A blue arrow points from the 'createState' method in the left box to the 'addState' method in the right box. Both boxes contain the same namespace and class information: 'smacc::introspection' and '::SmaccStateMachineInfo'.

smacc::introspection  
::SmaccStateMachineInfo  
::addState
