

```
cl_move_base_z::forward  
_local_planner::ForwardLocal  
Planner::computeNewPositions
```

A diagram showing a call sequence. A grey box on the left contains the code for `computeNewPositions`. A blue arrow points from this box to a white box on the right, which contains the code for `initialize`. Both boxes are part of a larger sequence of calls, with `forward` being the top-level function in both.

```
cl_move_base_z::forward  
_local_planner::ForwardLocal  
Planner::initialize
```
