The diagram illustrates an inheritance relationship. A base class box at the top contains the text 'boost::statechart::event< EvWaypoint226 < TSource, TOrthogonal > >'. A derived class box at the bottom, shaded gray, contains 'cl_move_base_z::EvWaypoint226 < TSource, TOrthogonal >', '+ waypointIndex', and an empty section. A blue arrow points from the derived class to the base class.
