The diagram shows a base class box at the top and a derived class box at the bottom. The base class box has three horizontal compartments. The top compartment contains the text 'boost::statechart::event< EvWaypoint139< TSource, TObjectTag > >'. The middle and bottom compartments are empty. The derived class box has three horizontal compartments. The top compartment contains the text 'cl_move_base_z::EvWaypoint139< TSource, TObjectTag >'. The middle compartment contains the text '+ waypointIndex'. The bottom compartment is empty. A blue arrow with an open triangle head points from the top of the derived class box to the bottom of the base class box, indicating inheritance.
