

```
cl_move_base_z::backward  
_local_planner::BackwardLocalPlanner  
::defaultBackwardCmd
```

```
graph LR; A["cl_move_base_z::backward  
_local_planner::BackwardLocalPlanner  
::defaultBackwardCmd"] --> B["cl_move_base_z::backward  
_local_planner::BackwardLocalPlanner  
::checkGoalReached"]
```

A diagram showing a call sequence between two code blocks. The left block, with a gray background, contains the code for a default backward command. A blue arrow points from this block to the right block, which has a white background and contains the code for the checkGoalReached method. Both blocks are rectangular with black borders.

```
cl_move_base_z::backward  
_local_planner::BackwardLocalPlanner  
::checkGoalReached
```
