

```
smacc::ISmaccState  
::createEventGenerator
```

```
graph LR; A[smacc::ISmaccState::getROSNODE] --> B[smacc::ISmaccState::createEventGenerator];
```

A diagram showing a call from the `smacc::ISmaccState::getROSNODE` method to the `smacc::ISmaccState::createEventGenerator` method. The `createEventGenerator` box is shaded gray, while the `getROSNODE` box is white. A blue arrow points from the `getROSNODE` box to the `createEventGenerator` box.

```
smacc::ISmaccState  
::getROSNODE
```
