

boost::statechart::
event< EvWaypoint224
< TSource, TOrthogonal > >

```
classDiagram
    class BoostStatechartEvent["boost::statechart::event< EvWaypoint224< TSource, TOrthogonal > >"]
    class ClMoveBaseZEvWaypoint224["cl_move_base_z::EvWaypoint224< TSource, TOrthogonal >"]
    ClMoveBaseZEvWaypoint224 --|> BoostStatechartEvent
```

The diagram illustrates a generalization relationship. A blue arrow with an open triangular head points from the bottom class to the top class. The top class is a white box with a black border, divided into three horizontal sections. The bottom two sections are empty. The bottom class is a gray box with a black border, divided into three horizontal sections. The top section contains the class name and template parameters, the middle section contains a public attribute, and the bottom section is empty.
