

boost::statechart::
event< EvFail >

```
classDiagram
    class boost_statechart_event["boost::statechart::event< EvFail >"]
    class sm_ferrari_EvFail["sm_ferrari::EvFail"]
    boost_statechart_event <|-- sm_ferrari_EvFail
```

The diagram consists of two class boxes. The top box, representing the base class, is divided into three horizontal sections. The top section contains the text 'boost::statechart::' followed by 'event< EvFail >' on the next line. The middle and bottom sections are empty. The bottom box, representing the derived class, is also divided into three horizontal sections. The top section contains the text 'sm_ferrari::EvFail'. The middle and bottom sections are empty. A blue arrow with an open triangular head points from the top section of the bottom box to the bottom section of the top box, indicating an inheritance relationship.

sm_ferrari::EvFail
