The diagram illustrates an inheritance relationship. The base class, `boost::statechart::event< EvWaypoint237 < TSource, TOrthogonal > >`, is shown in a white box with a thin border. The derived class, `cl_move_base_z::EvWaypoint237 < TSource, TOrthogonal >`, is shown in a grey box with a thick border. A blue arrow with a hollow triangular head points from the derived class to the base class. The derived class has a public attribute `+ waypointIndex` in its second compartment.
