The diagram illustrates an inheritance relationship. At the top is a white box representing the base class: `boost::statechart::event< EvWaypoint222 < TSource, TOrthogonal > >`. It has two empty compartments below the name. At the bottom is a grey box representing the derived class: `cl_move_base_z::EvWaypoint222 < TSource, TOrthogonal >`. It has two compartments below the name, with the first containing `+ waypointIndex`. A blue arrow with an open triangular head points from the top of the grey box to the bottom of the white box, indicating inheritance.
