

```
boost::statechart::  
event< EvWaypoint168  
< TSource, TObjectTag > >
```

The diagram illustrates an inheritance relationship. A blue arrow points from the bottom box to the top box, indicating that the bottom box inherits from the top box. The top box is a template for an event in the boost::statechart namespace, while the bottom box is a concrete implementation in the cl_move_base_z namespace.

```
cl_move_base_z::EvWaypoint168  
  < TSource, TObjectTag >
```

```
+ waypointIndex
```
