

```
function< void(std  
::shared_ptr< smacc  
::StateReactor >)>
```

```
classDiagram
    class Function {
        function< void(std::shared_ptr< smacc::StateReactor >)>
    }
    class Functor {
        smacc::introspection::StateReactorCallbackFunctor
    }
    Function o-- "1" Functor : +fn
```

The diagram consists of two class boxes. The top box is white and contains the text 'function< void(std::shared\_ptr< smacc::StateReactor >)>'. It has two empty rectangular compartments below the text. The bottom box is gray and contains the text 'smacc::introspection::StateReactorCallbackFunctor'. It also has two empty rectangular compartments below the text. A vertical line connects the bottom of the top box to the top of the bottom box. On this line, there is a small open diamond symbol. To the right of the line, the text '+fn' is written.

+fn

```
smacc::introspection  
::StateReactorCallbackFunctor
```
