

```
cl_move_group_interface  
::CbCircularPivotMotion  
::generateTrajectory
```

A diagram illustrating a function call. A grey rectangular box on the left contains the code snippet: `cl_move_group_interface::CbCircularPivotMotion::generateTrajectory`. A blue arrow points from the right side of this box to a white rectangular box on the right. The white box contains the code snippet: `cl_move_group_interface::CbCircularPivotMotion::computeCurrentEndEffectorPoseRelativeToPivot`.

```
cl_move_group_interface  
::CbCircularPivotMotion  
::computeCurrentEndEffectorPose  
RelativeToPivot
```
