The diagram illustrates a directed graph with three source nodes on the left and one target node on the right. The source nodes are labeled 'cl_move_base_z::CostmapSwitch::disable', 'cl_move_base_z::CostmapSwitch::enable', and 'cl_move_base_z::CostmapSwitch::onInitialize'. The target node is labeled 'cl_move_base_z::CostmapSwitch::getStandardCostmapName'. Blue arrows point from each of the three source nodes to the target node. The target node is shaded gray, while the source nodes are white with black borders.
