

testing::internal::
UnitTestImpl::GetTestCase

```
graph LR; A[testing::internal::UnitTestImpl::GetTestCase] --> B[testing::internal::UnitTestOptions::MatchesFilter]
```

A diagram showing a dependency between two code elements. On the left, a gray rectangular box contains the text 'testing::internal::UnitTestImpl::GetTestCase'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'testing::internal::UnitTestOptions::MatchesFilter'. Both boxes have a thin black border.
