

boost::statechart::
event< Ev2 >

```
classDiagram
    class Base["boost::statechart::event< Ev2 >"]
    class Derived["sm_viewer_sim::Ev2"]
    Base <|-- Derived
```

The diagram shows two class boxes. The top box, representing the base class, is white with a black border and contains the text 'boost::statechart::' followed by 'event< Ev2 >' on the next line. It has two empty rectangular compartments below the text. The bottom box, representing the derived class, is gray with a black border and contains the text 'sm_viewer_sim::Ev2'. It also has two empty rectangular compartments below the text. A blue arrow with an open triangular head points from the top of the bottom box to the bottom of the top box, indicating an inheritance relationship.

sm_viewer_sim::Ev2
