The diagram illustrates an inheritance relationship. A blue arrow with an open triangular head points from the bottom class to the top class. The top class is a UML class box with three compartments: the top one contains the text 'boost::statechart::event< EvWaypoint222 < TSource, TOrthogonal > >', the middle one is empty, and the bottom one is empty. The bottom class is a UML class box with three compartments: the top one contains 'cl_move_base_z::EvWaypoint222 < TSource, TOrthogonal >', the middle one contains '+ waypointIndex', and the bottom one is empty. The bottom class has a black border and a light gray fill, while the top class has a thin gray border and a white fill.
