

smacc/include/smacc  
/smacc\_signal.h

```
graph TD; A["smacc/include/smacc /smacc_signal.h"] --> B["boost/signals2/signal.hpp"]; A --> C["boost/any.hpp"];
```

The diagram illustrates the include relationships for the `smacc_signal.h` header. It is a hierarchical structure where the top-level header includes two other headers: `boost/signals2/signal.hpp` and `boost/any.hpp`. The top-level header is in a grey box, while the included headers are in white boxes. Blue arrows indicate the direction of the include relationship from the top-level header to the included headers.

boost/signals2/signal.hpp

boost/any.hpp
