

boost::statechart::
event< EvFail >

```
classDiagram
    class Base["boost::statechart::event< EvFail >"]
    class Derived["sm_three_some::EvFail"]
    Base <|-- Derived
```

The diagram shows two class boxes. The top box, representing the base class, is white with a black border and contains the text 'boost::statechart::event< EvFail >'. It is divided into three horizontal sections by thin black lines. The bottom section is empty. The bottom box, representing the derived class, is gray with a black border and contains the text 'sm_three_some::EvFail'. It is also divided into three horizontal sections by thin black lines. A blue arrow with an open triangular head points from the top of the bottom box to the bottom of the top box, indicating an inheritance relationship.

sm_three_some::EvFail
