The diagram illustrates an inheritance relationship. A base class box at the top contains the text 'boost::statechart::event< EvWaypoint119 < TSource, TObjectTag > >'. It is divided into three horizontal sections, with the text in the top section and two empty sections below. A blue arrow points upwards from a derived class box to the base class box. The derived class box is shaded gray and contains the text 'cl_move_base_z::EvWaypoint119 < TSource, TObjectTag >' in the top section, '+ waypointIndex' in the middle section, and an empty section at the bottom.
