

```
cl_move_group_interface  
::CbMoveEndEffectorTrajectory  
::CbMoveEndEffectorTrajectory
```

A diagram illustrating a transition between two states of a class. On the left, a gray box contains the text 'cl\_move\_group\_interface', '::CbMoveEndEffectorTrajectory', and '::CbMoveEndEffectorTrajectory'. A blue arrow points from this box to a white box on the right. The white box contains the text 'cl\_move\_group\_interface', '::CbMoveEndEffectorTrajectory', and '::initializeROS'.

```
cl_move_group_interface  
::CbMoveEndEffectorTrajectory  
::initializeROS
```
