

```
sm_moveit_3::place  
_states::StMovePrePlacePose  
::computeCubeGraspingOrientation
```

A diagram showing a call from the `runtimeConfigure` method to the `computeCubeGraspingOrientation` method. The `runtimeConfigure` method is in a white box on the right, and the `computeCubeGraspingOrientation` method is in a gray box on the left. A blue arrow points from the `runtimeConfigure` box to the `computeCubeGraspingOrientation` box.

```
sm_moveit_3::place  
_states::StMovePrePlacePose  
::runtimeConfigure
```
