

```
cl_move_base_z::backward  
_local_planner::BackwardLocalPlanner  
::defaultBackwardCmd
```

A diagram showing a sequence of two function calls. The first call, in a grey box, is `cl_move_base_z::backward` followed by `_local_planner::BackwardLocalPlanner::defaultBackwardCmd`. A blue arrow points from this box to a second box on the right. The second box contains the same first line, `cl_move_base_z::backward`, followed by `_local_planner::BackwardLocalPlanner::checkGoalReached`.

```
cl_move_base_z::backward  
_local_planner::BackwardLocalPlanner  
::checkGoalReached
```
