The diagram illustrates an inheritance relationship. A light gray box at the top represents the base class `boost::statechart::event< EvWaypoint243 < TSource, TOrthogonal > >`. A dark gray box at the bottom represents the derived class `cl_move_base_z::EvWaypoint243 < TSource, TOrthogonal >`. A blue arrow with an open triangular head points from the derived class to the base class. The derived class has a public attribute `+ waypointIndex` shown in its second compartment.
